IN REPLY REFER TO:
CJ&A_24-0076

CLASS JUSTIFICATION AND APPROVAL FOR USE OF OTHER THAN FULL AND OPEN COMPETITION

1. Contracting Activity.

Naval Air Systems Command (NAVAIR) Headquarters

2. Description of the Action Being Approved.

This Class Justification and Approval (CJ&A) authorizes and approves the issuance of sole source contract actions with Raytheon, Tucson, Arizona for follow-on Tactical Tomahawk (TACTOM) Block IV missile recertification Fiscal Years (FY) 24-28 to include Lots 5-9. This includes induction, overhaul, testing, and fielding of recertified missiles. Recertification also includes the refurbishment/modernization of the TACTOM, tooling, test equipment, and lab assets necessary to execute the program cradle to grave. These requirements support the U.S. Navy (USN), other DoD Service Customers, and Foreign Military Sales (FMS) customers. Authority to act under this class justification expires on 30 September 2030.

3. Description of Supplies/Services.

This CJ&A authorizes the procurement of recertification and modernization of TACTOM Block IV missiles with an estimated quantity of 2316 missiles (FY24-28) for the USN and FMS. In addition, this CJ&A authorizes procurements in FY24-30 in support of TACTOM recertification and modernization to include: recertification of the Composite Capsule Launching Systems (CCLS); navigation upgrades and integration/fielding of new capabilities to include Maritime Strike Tomahawk (MST), upgraded Global Positioning System (GPS) Military Code (M-Code), and Joint Multiple-Effects Warhead System (JMEWS); spares and rotatable pool assets; procurement, repair and upgrades to Government Furnished Property (GFP), Special Tooling (ST), and Special Test Equipment (STE); software and simulation sustainment; flight and functional ground test support, conversions, emergency shipping, and associated investigations and analysis; conducting training courses; obsolescence management and solutions; systems engineering and logistics support and associated studies; over and above repairs and unscheduled maintenance; and Service Life Assessment Program. Efforts covered by this CJ&A are anticipated to be completed by 31 December 2030.

Estimated Dollar Value in Millions

4. Statutory Authority Permitting Other Than Full and Open Competition.

10 U.S.C. 3204(a)(1), Only one responsible source and no other supplies or services will satisfy agency requirements.

5. Rationale Justifying Use of Cited Statutory Authority.

Pursuant to Federal Acquisition Regulation (FAR) 6.302-1(a)(2)(ii) and (iii), NAVAIR has determined the required supplies and services are available only from the original source in case of a follow-on contract for the continued development or production of a major system or highly specialized equipment or services, including major components thereof, and award to any other source would result in substantial duplication of costs which the Government is not expected to be recovered through competition.
[REDACTED]

As a result of a competitive procurement in 1994, Raytheon was selected as the sole producer of the TACTOM AUR missile and depot maintenance. Raytheon maintains and controls both the Level III Technical Data Package (TDP) and the manufacturing documentation for the TACTOM missile and associated Government special tooling, special test equipment and Government Property due to the performance-based nature of the TACTOM missile development and production contracts. The USN has not procured TDPs adequate for competition for the TACTOM missile or recertification efforts. Further, Raytheon is not willing to sell to the USN the Level III TDP, which would be required for a competitive procurement. Use of the TDP is required to perform recertification and depot activities, delivery, and installation of the identified components and modernization kits based on the complexity of those items and performance integration requirements.

Raytheon is the only known source that currently possesses the required technical knowledge, expertise, data, and facilities required to recertify the TACTOM AUR Block IV missile to meet USN Fleet and FMS customer requirements.

6. Description of Efforts Made to Solicit Offers from as Many Offerors as Practicable.

Requests for Information or Sources Sought requirements, pursuant to FAR 5.204 as a special notice, have been waived in accordance with DFARS PGI 206.301-1(d). In accordance with FAR 5.201, a synopsis was issued on SAM.gov on 17 April 2023 with no responses received. No additional market research was conducted because it is not practicable for any company other than Raytheon to provide the required supplies and services for the reasons discussed in paragraph five.

7. Determination of Fair and Reasonable Cost.

The Contracting Officer has determined the anticipated cost to the Government of the supplies/services covered by this CJ&A will be fair and reasonable.

8. Actions to Remove Barriers to Future Competition.

For the reasons set forth in paragraph five, NAVAIR has no plans at this time to compete future contracts for the types of supplies and services covered by this document. If another potential source emerges, NAVAIR will assess whether competition for future requirements is feasible.

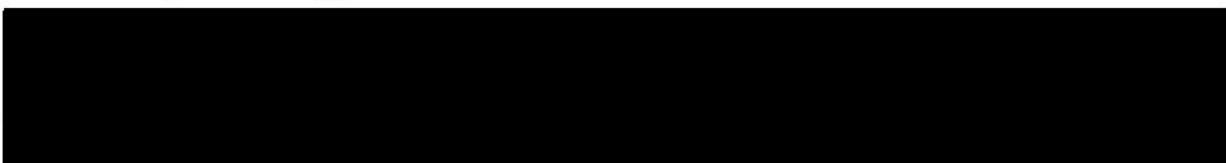

As this is a follow-on for supplies and services previously awarded on a non-competitive basis, in accordance with DFARS PGI 206.304(a)(S-70)(i), the prior J&A was provided to the approval authority for review. Approval of this CJ&A signifies the approval authority has made the determination required by DFARS PGI 206.304(a)(S-70)(ii).

CERTIFICATIONS AND APPROVAL

TECHNICAL/REQUIREMENTS CERTIFICATION

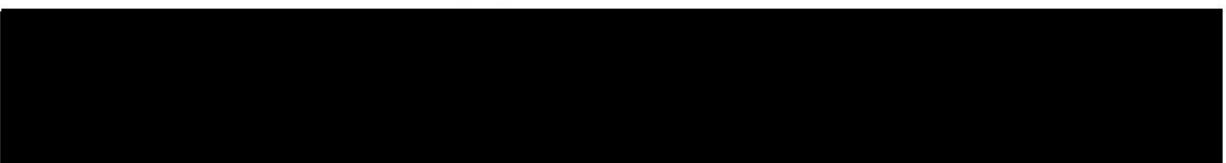

I certify that the facts and representations under my cognizance which are included in this Justification and its supporting acquisition planning documents, except as noted herein, are complete and accurate to the best of my knowledge and belief.

Technical/Requirements Cognizance:

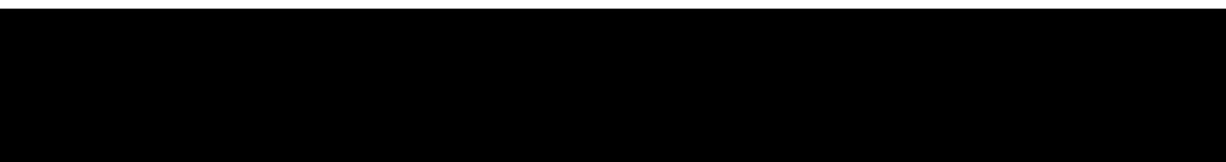

LEGAL SUFFICIENCY REVIEW

I have determined this Justification is legally sufficient.

CONTRACTING OFFICER CERTIFICATION

I certify that this Justification is accurate and complete to the best of my knowledge and belief.

SENIOR PROCUREMENT EXECUTIVE APPROVAL

Upon the basis of the above justification, I hereby approve, as Senior Procurement Executive of the Navy, the solicitation of the proposed procurement(s) described herein using other than full and open competition, pursuant to the authority of 10 U.S.C. 3204(a)(1), Only one responsible source and no other supplies or services will satisfy agency requirements.
